Difference Between Break through and Breakthrough:

In the context of break phrasal verbs, there are two words that seem to be the same in spelling and pronunciation but there are differences.

"Breakthrough" and "break through" are two different terms with distinct meanings and uses in the English language.

- Breakthrough (Noun):

- A "breakthrough" is a significant and noteworthy advancement or discovery in a particular field or area of study. It typically refers to a moment when progress is achieved, often after overcoming a significant obstacle or barrier.
- Example: The scientists made a groundbreaking "breakthrough" in cancer research, discovering a new treatment that shows great promise.
- Break Through (Verb Phrase):
 - "Break through" is a verb phrase that means to penetrate or pass through a barrier, obstacle, or obstruction. It refers to physically or figuratively breaking through something that is blocking progress.
 - Example: The athletes had to "break through" the defensive line to score a goal in a soccer match.

In summary, "breakthrough" is a noun that represents a significant achievement or discovery, while "break through" is a verb phrase that describes the action of overcoming an obstacle or barrier. The context in which they are used will determine their correct usage.
